SUMMARY

Results-oriented Java Full Stack Developer with **3+ years of experience** designing and developing scalable RESTful APIs and enterprise applications using **Java 21, Spring Boot, and Angular**. Experienced in designing backend architecture, developing new features end-to-end, optimizing API performance, and integrating complex systems.

TECHNICAL SKILLS

Languages: Java, Kotlin, JavaScript, HTML, CSS, SQL
Frameworks & Libraries: Spring, Spring Boot, Microservices, Hibernate, Angular, React, Bootstrap
Cloud & DevOps: AWS, Azure DevOps, Docker, Jenkins, Maven, Git, CI/CD Pipelines
Databases: MySQL, PostgreSQL
Other Tools: Postman, Jira, DBeaver, SVN
Soft Skills: Problem Solving, Analytical Thinking, Time Management

EXPERIENCE

Software Product and Platform Engineering Analyst Dec 2022 – Dec 2025
Accenture Gurugram

- Developed and maintained enterprise-grade RESTful APIs using **Spring Boot (Java 21)**, improving backend scalability and reducing server load by **20%**.
- Worked on the **Accenture Life Insurance Platform (ALIP)** project — a large-scale insurance product for global clients — to enhance backend functionality and optimize data operations.
- Implemented **CRUD operations** to manage **10K+ policy records**, increasing data handling efficiency by **25%**.
- Designed and integrated **pagination and filtering APIs** to optimize large dataset retrieval, improving performance and scalability by **30%**.
- Added multiple services** to ALIP, including a **fund service** to fetch and manage available funds, improving data retrieval **efficiency** by **30%** and streamlining platform operations.

Programmer Analyst Aug 2022 – Nov 2022
Cognizant Technology Solutions Noida

- Completed hands-on training in Java, Spring Boot, and Angular, applying concepts through individual and team-based capstone.
- Engineered within a cross-functional Agile team to align backend logic, workflows, and UI components, ensuring timely delivery of project milestones.

PROJECTS

AI Email Writer | *Spring Boot, React, Gemini AI* | [GitHub](#) Jan 2025 – Feb 2025

- Developed a full-stack application with Spring Boot (backend), React (frontend), and a **Chrome extension** to generate **AI-powered** email replies.
- Integrated a Spring Boot API for dynamic content generation, **reducing response time by 20%** and ensuring secure and efficient communication between the frontend and backend.

Exam Portal | *Java, Spring Boot, Angular* | [GitHub](#) Jun 2022 – Jul 2022

- A software that provides professors a **user-friendly** platform to host quizzes for their courses while ensuring that these quizzes are answered by students in an ethical manner.
- Built upon Java, Spring Boot, Angular, and MySQL technologies, this project streamlines the process of quiz administration, saving valuable time for educators.

CERTIFICATIONS & ACHIEVEMENTS

- 4-star coder** on HackerRank in Java.
- Solved **600+** problems on **GeeksforGeeks, LeetCode**.
- Certified in **Java + Spring Boot from Basics to Advanced** by Shrayansh Jain.
- Pursued **The Complete 2024 Web Development Bootcamp** by Dr. Angela Yu.

EDUCATION

Bharati Vidyapeeth's College of Engineering New Delhi
B.Tech in Information Technology, 8.7 CGPA Aug 2018 – Jul 2022
